

RICH RODDMAN, CSI

DIGITAL IMAGING TECHNICIAN (DIT) / COLORIST

ABOUT ME:

I am a Digital Imaging Technician with over 30 years of experience in the film and video production industry and a member in the Colorist Society International (CSI) guild. I am familiar with all major camera platforms and their unique color sciences developed for the individual cameras. I have created many successful workflows for a variety of productions, including feature films, television series, and high-end commercials. When we used to shoot on film, we had a film lab. Today we should on digital, I am a film lab. I can create dailies or develop full color looks to be implemented into the project. My philosophy - Color is Character.
