## EXPERIENCE

### Freelance Drone Operator

2022 - Present

In 2022 I dove into flying drones full time. Since then I have worked with 20+ clients providing a necessary tool to truly communicate their ideas.

I am fully licensed + Insured to operate in United States Airspace and am capable of obtaining licenses abroad.

I have operated in several states in the US and internationally as far as Italy and Samoa.

The types of projects I have worked on have included

- Real Estate
- Documentary
- Commercial
- PSAs
- Advertising
- Sports Coverage.

## EDUCATION

### Self Taught

Present

With no formal education available for my skill set so I have had to learn everything from trial and error as well as internet resources.

Learning about cameras, lenses, shot lists, shot sequences etc is very important to me. I have achieved a deep understanding of this by serving as 1st & 2nd AC on several projects and by studying articles and videos regarding the subject.

## SKILLS

Designing Project-Specific Solutions  
Operating Pan/Tilt Drone  
Operating FPV Drone  
Cam Op  
Multi-skilled  
Good under pressure  
Safety Oriented

## Certifications

FAA Part 107  
CAA Samoan Drone License

## LANGUAGES

English  
Italian  
Light Spanish

## **FAA, Part 107 Certification**

2020

Studied rules and regulations regarding drone operations in the US and successfully passed the FAA Part 107 certification.

### **KEY PROJECTS**

#### **TXL Films Genius #8 — FPV Freefly Ember + Gopro - Atlanta, GA**

Worked alongside DP to capture Harlem Globetrotter in dynamic movements indoors and out. Custom designed smallest formfactor possible to carry Ember ensuring maximum safety for talent. Flew a combination of Freefly Ember and Gopro depending on proximity. Shot list included opening shots, super slow-mo 1011 FPS shots of the player, flying through players legs, into a basketball hoop following the ball.

#### **MadBearProductions Berkeley Prep Promo — Gopro 11 + Naked Gopro 11 - Tampa, FL**

Used a combination of protected Sub250g drone and full size to carry a Gopro 11 in and around the school with children present. Full video shows every aspect of the school including several sports, art and religious activities in a seamless story. Operation was done within 1 km of an International Airport which required scouting days and several FAA Approvals.

#### **APS Education — Sony FX30 FPV, Gopro 11 FPV, DJI Mavic Air 2S, FX30 Handheld & Gimbal - Apia, Samoa**

Worked as solo film maker for 3 weeks to film various aspects of education reform projects in Samoa including Interviews, B-roll, photos, FPV and DJI Pan/ Tilt. Project required tons of pre-planning, obtaining international certifications and waivers from government entities. I also volunteered to hold a drone workshop for the Soamoan TV Station and the Government Media Unit.

#### **MadBearProductions Tampa Riverwalk — Gopro 11 FPV - Tampa, FL**

Used a combination of protected FPV and open prop FPV to display various aspects of Tampa's features for future promotions. This included diving down buildings, flying in proximity to water, flying near people all while keeping the highest level of safety possible.

**FMP New Years Event — Naked Gopro 11, Gopro 10 Bones,  
Gopro 10 FPV - Clearwater, FL**

Worked with a Church and their film crew to film various aspects of their buildings including dynamic movements displaying exterior features, flying indoors, around church members and displaying interior features. Video was used for their International New Years Event watched by hundreds of thousands of church members.

**Rockie'sRebels Winter Boot Promo— Gopro 11 FPV -  
Bozeman, MT**

Worked with DP to provide estab shots of the environment, transition from estab to close up on models and action shots of models. Flew a combination of large format drones for high speed flying and smaller protected drones for flying in proximity to the model.

**Zero FXE Dealer Promo — Gopro 11 FPV - Sarasota, FL**

Worked with DP to provide proximity tracking shots at high speeds, estab shots and slow detailed shots in tight proximity to rider
